IATA (International Air Transport Association)

The International Air Transport Association is a trade association of the world's Airlines founded in 1945. IATA has been described as a cartel since, in addition to setting technical standards for Airlines; IATA also organized tariff conferences that served as a forum for price fixing.

Mainly IATA is an association that is use like a media between Airlines and Travels Agents.

IATA & NON-IATA Agents

If an agency wants to authorize the ticketing than must be member of IATA. So, the IATA agents able to issue the tickets and non-IATA agents not able to issue the tickets (only can booked a PNR).
